

Tools for excavator

Ditch bucket

Designed to meet the difficult working conditions, the Beaver ditch bucket is made from highly resistant materials.

- Rounded forms, leaves no marks at work finishing
- Smooth background, allows a leveling accuracy
- Available with a long floor for loading
- Short floor cleaning ditches on one operation
- Fixation on hooks or direct mount (Pin on)
- Compatible with all products, brands and existing models

For exceptional durability or for very demanding applications, choose a well thought bucket!
